## Education

### Utah Valley University - School of Computer Science

Fall 2016 - Fall 2022

BS in Computer Science

Grade Point Average: **3.2**

### University of Utah

May 2020 - November 2020

Full Stack Web Development Boot Camp

## Relevant Experience

### League Manager Web Application

JavaScript (2020)

- Created a server side sport league user input database template to organize the teams data.
- Using Node, JS, MySQL, and Sequelize generated the backend connection between the server and Handlebars, then deployed to Heroku.
- Fabricated the front end styling, and formatted the user input forms using Bootstrap CSS.

### Burger Logger Web Application

JavaScript (2020)

- Constructed a burger log with MySQL, Node, Express, Handlebars and an ORM from Scratch.
- Utilized Node and MySQL to query and route data in the app, Handlebars generated the HTML.
- Applied a JS server backed by MySQL port, reported user input data into the SQL database.

## Technologies & Skills

|            |            |             |         |           |
|------------|------------|-------------|---------|-----------|
| HTML       | JavaScript | CSS         | Python  | MySQL     |
| Handlebars | Node.js    | Bootstrap   | VS Code | GitHub    |
| REST       | jQuery     | Materialize | Postman | Sequelize |
| Express    | Inquirer   | Bitbucket   | React   |           |
